Title: Ohio Engineers

Issue Date: Jan-1926

Publisher: Ohio State University, College of Engineering

Citation: Ohio State Engineer, vol. 9, no. 2 (January, 1926), 24-25.

URI: <http://hdl.handle.net/1811/33780>

Appears in Collections: [Ohio State Engineer: Volume 9, no. 2 \(January, 1926\)](#)

OHIO ENGINEERS

LE ROY W. HENDERSHOTT

Here is a fine young chap whose list of activities looks like a Greek hotel register, but he is so unassuming that no one would ever guess it. If for any reason you become more closely associated with him than mere speaking acquaintance, you will realize that he is of much more than average intelligence, a hard worker at every task he assumes, and a dandy good fellow into the bargain. Roy was out for football early in his brilliant college career, but when he started joining the honoraries his wrist was injured by the repeated hand-shaking, so he was forced to abandon athletics.

His personality makes him an ideal executive, three campus organizations having made him president. He was the skipper at the Phi Gam helm last year, and this year he heads Tau Beta Pi and the A. I. E. E. Hendershott is a member of Phi Gamma Delta, Tau Beta Pi, Sigma Xi, Eta Kappa Nu, Pi Mu Epsilon, Texnikoi, the A. I. E. E. and Interfraternity Council.

CLAUDE R. KINGSBURY

If Kingsbury did back in the home town of Ravenna, what he spends a lot of time doing at college, the local citizens would think he was crazy. We refer to his deeply ingrained habit of dashing about the countryside in all kinds of weather with little or—well, practically no—clothing. At school he manages to hold off the asylum authorities with some trumped up yarn about his being a cross-country man, and as such is entitled by the constitution, Magna Charta and Bill of Rights to go as far as he likes in the matter of garb and travel without interference.

"King" has been quite active in both track and cross-country. His value to the squad is attested by the coach and his team-mates. His success is accounted for by his natural ability and constant training. The distance from the Delta Alpha Pi house to the Shops Building is long, and negotiating it several times daily keeps him in trim.

Kingsbury belongs to Varsity O, the track squad, the cross-country squad, Cross Country Club, Texnikoi and Delta Alpha Pi.

OHIO ENGINEERS

ARTHUR V. MAC NAMER

Mac is married. No one as good looking as he is could run around loose very long and stay single. His wife used to let him out one night a year. Mac, looking for alibis to leave the domicile, got up to his neck in so many activities that he now has a meeting of some sort to attend almost every night. His versatility evidently seeks variety, for he is associated with all sorts of enterprises: fraternal, social, athletic, political and scientific.

Some men are on good terms with their fellow students, others are on good terms with the professors, and a few enjoy the favor of both. Mac is in this restricted class, and it is quite likely his perpetual smile had a lot to do with his becoming such a favorite.

Mac answers to roll call in these organizations: Theta Tau, A. I. E. E., Pi Tau Pi Sigma, Masonic Columbus Lodge 30, Football, Texnikoi and Engineers' Council.

ALLEN M. ROSE

One of the most popular men in the engineering college is none other than the bright looking young man on the left. Because of his ability to remember all the good old jokes and his uncanny knack of originating new ones, he is always surrounded by a group of eager listeners wherever you find him. In addition to being a first rate pianist, he also performs on the saxophone, banjo, clarinet and cornet, and has threatened from time to time to take up the ukelele.

Though the large number of friends his engaging personality has won him, generally know only of his social abilities, he nevertheless has his serious side. Briefly it is radio. He was formerly the voice with the smile at WEAO, but as he is working thesis this year he has left the station. He spends a lot of time at home in his private laboratory working out his own ideas.

Rose is a member of Triangle, Phi Delta Kappa, Scabbard and Blade, Pi Tau Pi Sigma, and the Radio Club, of which he is president.
